Western Messenger Service
75 Columbia Square
San Francisco, CA 94103

Dear Patty and friends,

I am writing to thank you for your tremendous assistance to Physicians Organizing Committee! Several times over these past five years, including last month, Western Messenger Service has donated the shipping of our news magazines *New Diagnosis* to the downtown San Francisco offices of our all-volunteer effort.

This has enabled POC to rapidly get the word out to our member physicians about urgent healthcare situations we are dealing with. The news magazine has helped us gain more volunteer participation in our efforts to to keep St. Luke s and San Leandro hospitals open. Westetrn Messenger provides the first and essential leg in our distribution network that gets several thousand copies of our news magazine into the hands of concerned physicians seeking to prevent further cuts to mental health services throughout the San Francisco Bay Area.

Your friendly and courteous staff always go above and beyond the call of duty by accomodating our time frames, giving us timely notification for when the news magazines are due to arrive and even assisting with loading and unloading all of the heavy boxes!

Sincerely,

Brian Tseng
Operations Manager
